GOGET Room Display 6

SOFTWARE FEATURES Quick Reference Guide

Professional Meeting Room Display Software

System Support & Integrations		Description
Supported System OS		Recommended Android v 5 to 8.
Software Type		Native application
Office 365		EWS & Office 365 Connect (Graph API)
Local Exchange 2007-2016		Support for local Exchange 2007-2016 via EWS
Google G Suite		G Suite API
Exchange Impersonation		Activates Impersonation instead of Delegation access method to the Exchange server.
Mobile app: Mobile Outlook app for iOS/Android		Manage room bookings via mobile device
Mobile app: Mobile Google app for iOS/Android		Manage room bookings via mobile device
Digital Signage, eg SmartSign™		HTML content
Automatic Room Finder & Booking Kiosk Pro Integration		Works seamlessly with room wayfinding (Room Finder) and centralized kiosk booking (Booking Kiosk Pro)
Central Administration		
Room Display Center		Full remote management of settings
Licence/device management		Pair/unpair devices with licenses
Integrations management		Connect other Goget products, eg Room Finder or Booking Kiosk Pro
Room Analytics		Statistics of room usage and KPIs
Display Heartbeat Checker/Last Ping		Last ping/display health status monitoring
Remote software update		Device management - manual & remote update of Room Display 6
Automatic updates		Automatic update of Room Display 6 when new releases are available
Display Options (Meeting Events)		
Language/Translation settings		Add custom translations + pre-set default languages (support for most languages)
Show Organizer On/Off		Show organizer of meetings on the home screen & calendar
Show Title On/off		Show the organizer of meetings on the home screen & calendar
Show meeting attendees On/off		Show the title of meetings on the home screen & calendar
Show "Meeting Title" Input		Allow the user to add a meeting title
Require "Meeting Title" Input		Require the user to add a meeting title
Show "Your name" Input		Allow the user to add name
Require "Your name" Input		Require the user to add name
Show Seating Capacity		Show seating capacity per room
Invert Title & Organizer fields		Shift focus from organizer to title and vice versa
Text scaling		Change the text size of the UI
Manage Bookings (on the Display)		
Delete Option		Delete meeting option on the display
End Early Option		End ongoing meeting option on the display
Extend Option		Extend ongoing meeting option on the display
Quick Book On/off		Ad-hoc bookings on-screen
Set bookable hours		Set and limit on-screen bookings to working hours
One-time PIN protection On/Off		Enable users to protect their on-screen reservations with a one-time PIN code. When applied, reservations made on-screen or from an email client (Outlook/Google etc) cannot be modified/deleted by anyone except the organizer or the administrator.
Instant-Only Booking Mode On/Off		Ad-hoc, on-screen reservations only possible if the room is available "now", until the next meeting. Automatically blocks all other open time-slots from on-screen reservations.
Book other Rooms (Rooms Nearby)		Book any room from any display. Add your choice of bookable rooms for each respective display.
Duplex Booking		Events booked on-screen will be automatically reflected on both the user and room resource calendars.
Branding capabilities		
Custom logo		Add image URLs in Room Display Center - logo will live in the upper right corner
Custom Background		Add a custom background instead of the default image
Custom Background Colors		Set a customized color for the available, occupied and pending statuses respectively. Works by entering the color code in hexadecimal format (#abcdef).

GOGET Room Display 6

SOFTWARE FEATURES

Quick Reference Guide

(cont)

Productivity	Description
Check-in Required (Pending Meeting)	Check-in Required (Pending Meeting) requires users to physically check in to meetings. If users do not check in, the meetings will be automatically deleted and the room becomes available for new bookings. Grace period for pending meetings is set before/after the meeting time. The default is 15 minutes, however it can be changed between 5-15 minutes.
Pending Notification Email	Automatically sends a check-in email reminder to the meeting organizer, 10 minutes before the no-show cancellation trigger.
Room Tagging	Add a customized text tag (for example: "Floor 1", "Huddle Room", "Study Room"). The tag is displayed in all Goget products and can be used to filter and organize resources depending on eg. location.
Show Room Amenities (Room Capabilities)	Shows room capabilities (icons) including error reporting of equipment and request for services directly from the device.
Filtering	Filter rooms based on room capabilities
Reporting E-mail	Adds an email to which error reports are sent
Content Board - Digital Signage	Shows Digital Signage content when the room is available, there is more than 30 minutes until next meeting and there has been no touch input for the past 2 minutes. The content can either be HTML or an image file.
Privacy	
One-time PIN protection	Enable users to protect their on-screen reservations with a one-time PIN code. When applied reservations done on-screen or from an email client (Outlook/Google etc) cannot be modified/deleted by anyone except organizer or the administrator.
Screen Lock	Activates a screen lock which require users to enter a PIN code in order to unlock the display. PIN needs to be 4 digits ranging from 0-9.
User Authentication (by RFID-NFC Card/Code)	Enable to start using user authentication with RFID/access card or personal code. In combination with the "Check-in Required" (Pending Meeting) feature, this option allows ONLY the organizer, alternatively ANY attendee to check in to (or verify) a meeting. Note for G Suite & Office 365 users: Events booked on-screen will be automatically reflected on both the user and room resource calendars.
Settings Protection PIN	Activate an administrator PIN which prevents users from accessing "General Settings". Will also unlock the "Screen Lock" and "One-time PIN protection" features. If the field is left empty users will automatically be able to access "General Settings" directly upon clicking the icon.
Hybrid On-prem	Full secure cloud central administration by adding the service account password locally (Local Exchange-EWS only)
Misc	
Kiosk Mode	Prevent users from exiting the Room Display 6 application
Night screen	Dim display during night. Customizable time range.
Screen Calibration	Runs nightly anti burn-in sequences to increase display life time.
Automatic Updates	Enable automatic updates of the software when new versions are released.
Network Checker	Checks & repairs network/wifi connection
Custom SMTP	Enable a custom SMTP server for sending messages from the Room Amenities function.
Debugging	Built-in debug feature
Licensing Options	
New Licenses	3-year (SKU: G103-016) or 1-year (SKU: G103-017)
Renewal Licenses	3-year (SKU: G103-018) or 1-year (SKU: G103-019)
LED-light sidebar activation – per display	For selected 3rd party hardware w. LED lights (SKU: G109-103)

How can I get Room Display 6?

- ▶ Pre-installed on GOGET One. (Recommended)
- ▶ 3rd party hardware: direct download from gogetcorp.com/support/#Downloads to your own pro grade Integrated Android Touch Display. (DL via browser)
- ▶ 3rd party hardware: download from Google Play to your own pro grade Integrated Android Touch Display.
